Come see our split level cabin with loft on 5.35 acres, just west of the small community of Datil, New Mexico. The kitchen has refrigerator and stove; W/D in utility room. Electric heating. This fantastic buy includes a 30X50' insulated metal RV garage/shop and a 16X16' site-built storage building. The views are very nice and you'll have great access right off of a state highway. It's an RV'ers dream!

**Only \$165,000!**
